

BELINDA RIMELL

PARENT Rep – Treasurer

Taskforces: Finance & Priority Projects

Introduce yourself and your family:

I grew up in Tallangatta and moved to Melbourne after I completed university at CSU in Albury. We moved back to the area in 2018 and couldn't be happier!

I have a husband, David and two beautiful children, Thomas and Amy. They are in Year Two and Foundation.

We love going away in our caravan as much as possible and going for bike rides and walks around the local area to explore as much of the region as we can.

Sitting by the camp fire in the backyard and cooking marshmallows is also a fun activity we do in the colder months!

My bright ideas for the school

This has been a tough one to answer as I love this school and it needs little improvement.

I have thought about it and I saw something on the web a long time ago where the library was painted with the spines of books. I think that could be a fun idea to do on the outside of the library to make it bright.

What is the best thing about Wodonga Primary that you would tell people who are not at the school?

I love that WPS is so inclusive and welcoming. I was apprehensive about the size of the school and when I attended the Open Day a few years ago, I was completely sold on how it is organised and how friendly and welcoming everyone is.

The staff and teachers are lovely and this is also reflected in the attitudes of the students. They really are growing up to be fantastic, respectful people, thanks to WPS!

My special hobbies / talents are:

I love to decorate cakes and cookies. I don't have a lot of time to do it, but it's such a relaxing thing to do when I can.

I also love hiking, especially in the early mornings to watch the sun rise and see the world come alive!
