

MAUREEN MURRAY

DET Rep

Taskforce: Software Program Review

My name is Maureen Murray. I have been a teacher at Wodonga Primary School since 2007. I have taught in a range of year levels from Year 5 to Year 1 as well as completing a year teaching in Canada through the International Teaching Fellowship program.

This year, I am the Professional Learning Communities Link Leader; working with teachers across the school and from other schools in our region. I am also coordinating the Student Leadership program and enjoying working with the students on a number of projects they are interested in pursuing.

As part of the School Council I am looking forward to working with the wider school community to achieve our shared goals for the students at Wodonga Primary.
