A bit about me & my family....

My husband, Brendan, and I have 3 boys at WPS. Dean in Year 4, Niall in Year 2 and Nash in Foundation. We also have a daughter, Brooke who, although only 2, is often seen at school chasing her brothers, climbing too high on the playground and singing songs with her friends at the Mother Goose program.

What I like about WPS

There is lots to like about WPS and I am proud to be part of this school community. Ultimately though, I like the consistent focus on high standards of teaching and learning. The teaching is child-centred and aimed at developing curiosity. I like how the Visible Learning approach allows children to see how they are in control of their own learning.

My special hobbies / talents are....

I like to camp and ride/walk alongside or swim in the river, especially when it contains less algae! I have a very special talent of being able to read a novel for extended periods of time completely ignoring the chaos caused by the 4 children, 1 husband and 2 dogs having fun around me.

My bright idea/s for the school

I am not sure I have any specific bright ideas. I am on school council to show my support to the staff, to help represent the voice of the broader school community and to learn more about what goes on at WPS.
