

## Sarah Maybury

### Parent Rep / SC Secretary

**Taskforces:** Canteen, Policies

#### **Introduce yourself and your family:**

My name is Sarah Maybury, I am a local, originally from Yackandandah, now living in Wodonga, and attended Mitchell Secondary College (now Huon Campus) and have been teaching at Wodonga Senior Secondary College for 8 years.

I am privileged to have four beautiful children, including two-step daughters Bella in Year 7 (Felltimber) and Chloe in Year 4, and a son Blake in Year 3, with Peyton to commence in 2020.

We are a very busy family involved in a number of sports locally, including Basketball, Netball, MMA, Dance and Gymnastics. “Keeping Busy” you could say is our family motto!

#### **Why did you choose to join school council?**

I chose to be on school council because I have a passion for expanding and developing young people’s education, and seeing the best for the future generations coming through Wodonga. My children love going to this school and I would like to continue to ensure that WPS provides the best possible opportunities for all children alike. I bring both a teachers and a parent’s voice to the table – and feel that I can represent all.

This is my second full year on the WPS council. I am exceptionally passionate about children’s education and ensuring that every child has an opportunity to reach their full potential; through learning and expanding their minds. I can do this by ensuring the right programs and initiatives are promoted to the wider community about the outstanding opportunities WPS offers our children.

#### **What is the best thing about Wodonga Primary that you would tell people not at the school?**

WPS is an ever growing and amazingly supportive school, with learning experiences that encourage respect, responsibility and a community that is welcoming.

A part from sound teaching across all main discipline areas, WPS has a sense of pride in its specialist programs and the ability to offer fantastic hands on learning, to accommodate all areas of education. The amazing focus on Maths has shifted kids opinions and the school should be significantly proud of this achievement.

The school, whilst large, accommodates excellently for its’ size – responding promptly to school yard complaints and management.

To top it off the school continues to develop amazing Discovery topics and I enjoy the conversations at home regarding these.

#### **What might the school community be surprised to know about you?**

I have been quoted as someone who is “too busy” and takes on too much, but what is life without living it. My partner is a much better cook than me!
